

eINSTRUCTION: STUDENT PERFORMANCE SYSTEM

Description of Activity: School districts desiring to enhance a career focus program of study in family and consumer sciences may utilize Perkins funds to purchase an interactive student performance system to assist in instructional evaluation and student learning. This technology allows teachers to monitor student learning by way of wireless response keypads and an infrared receiver. This system can be used to take attendance, give quizzes, grade tests, and get student responses to evaluate knowledge of a concept. Required #3 – Use of Technology; Permissive #8 – Purchase Instructional Aids; Permissive #11 – Support FACS Program.

Curriculum: Schools must currently have an approved program of study in a family and consumer sciences area and maintain the department for a total of five years after the addition of this activity.

Inservice: Inservice training for those purchasing eInstruction has tentatively been set for July 11, 2005, at the Arch Ford Education Cooperative in Plumerville. The purchase of a system is required to attend the training and must be purchased with registration. Attendees will need to bring their system to the training. A special package price has been designed for this workshop to allow two teachers to attend for one price, and each will receive a complete 16-pad system. The purchase price of \$2,500 includes registration, lunch, and all materials needed for the training session. Travel, additional meals, and lodging are not included in the package price.

Cost: The total cost of this activity should not exceed \$3,000.

Teacher:

I understand that by participating in this inservice, I agree to incorporate this activity into my family and consumer sciences program of study beginning in the 2005-06 school year. I understand that I must continue this activity for a total of five years or relinquish the equipment purchased as part of this activity.

Teacher Signature Date

Superintendent:

I agree to support this activity in the family and consumer sciences department for the 2005-06 school year. The school district will purchase the required equipment and supplies through Perkins Improvement Funds. I understand that this activity must be incorporated into the program for a total of five school years or equipment purchased will be relinquished to the state.

Superintendent Signature Date

Perkins Consortium Coordinator

I understand that this school district desires to implement the eInstruction activity for the 2005-06 school year through the use of its Perkins Improvement Funds. I agree to work with the school to purchase the necessary equipment and supplies and, if necessary, retrieve the items purchased at the direction of the FACS program manager.

Perkins Consortium Coordinator Signature Date

To register, you must (1) fill out and send the attached order form along with payment to eInstruction, and (2) mail or fax this form along with a copy of the order form to the FACS state office. Registration does not cover lodging.

Data-driven Instruction and Assessment

~The New Approach to Understanding

Educational research proves that data-driven instruction and assessment increases student cognition and testing scores. However, this higher standard of education demands a higher level of responsibility, time, and effort that falls predominantly on the shoulders of the classroom instructor. Collecting, recording, and analyzing data for dozens to hundreds of students is a heavy task.

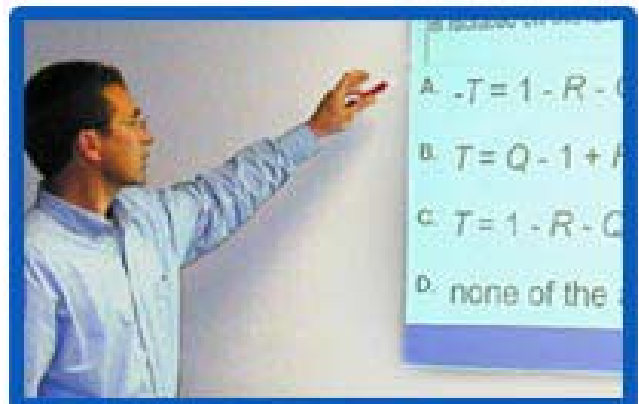

To meet the need, eInstruction delivers a professional development seminar that will help educators confidently and creatively succeed in data-driven instruction. The seminar supplements instructional tools and strategies that are currently being used and combines them with simple technology integration for the classroom.

Incorporate data-driven instruction and assessment into your educational environment while:

- * Focusing on achievement standards
- * Creating an exciting and fun instructional environment
- * Receiving 100% participation
- * Reducing the teacher's administrative workload
- * Producing rich and timely student performance reports to all interested parties (administrators and parents)

Leave this seminar with the technology, instructional tools, and excitement to take your classes to the next level! **For \$2,500, you can send up to two representatives and receive the following:**

- * Instructional materials
- * One 32-pad Classroom Performance System (16 keypads per teacher)
- * An additional receiver unit and two remote mice (shown below)
- * Coupon for additional 32 pads and carrying case for \$1,500 (redeem this coupon with original purchase order for seminar)
- * Continental breakfast & lunch

Professional Development for Data-driven Instruction

Please fill out the following information and send this registration form along with purchase order for \$2,500.

(Please print clearly and accurately as confirmations are sent via e-mail.)
